Glulam is available in custom sizes, curved shapes and in a variety of wood species that give our customers greater flexibility and the convenience of combining custom orders with other building materials.

Rosboro offers quality lumber and highly durable Engineered Wood Products. Based in Springfield, OR, Rosboro is dedicated to bringing your commercial or residential project to life.

Architectural appearance X-Beam is 3½” and 5½” wide glulam that fits flush with standard framing and is available in conventional and I-Joist depths. X-Beam is 24F-V4 DF glulam with a slight 5000’ radius camber. Best of all, X-Beam is the most cost-effective engineered wood product on the market.

Rosboro Big Beam DF™ is the perfect choice for high-strength engineered beam and header applications. Rosboro Big Beam DF™ is dry, stable, easy to cut and install, and is competitively priced.

CUSTOM GLULAM
Glulam is available in custom sizes, curved shapes and in a variety of wood species that give our customers greater flexibility and the convenience of combining custom orders with other building materials.
Rosboro has created a laminated substitute for solid-sawn Douglas fir timber. Our manufacturing team has worked with the WCLIB and WWPA to create RMT®, a size-for-size, grade-for-grade alternative to Douglas fir timber. It’s certified under the same lumber grading rules as solid sawn, and it’s structurally engineered to meet the same stress ratings. RMT® is also manufactured to uniform dimensions, so it’s completely interchangeable with solid-sawn timber of the same size and grade. Since RMT® is a manufactured timber, preferred lengths are no problem. RMT® is available in a range of lengths up to 60 feet. It’s kiln dried to a moisture content of less than 15 percent before assembly, it resists twisting, splitting, cupping, and warping.

STUDS
Rosboro specializes in green and dry Douglas fir and KD Hem-Fir studs in standard and custom trim lengths. All Rosboro studs are #2 & Better PET with “No Prior Select”. This means the high grade has not been pulled out of the unit, therefore builders can count on consistent quality.

- Grading Association: WCLIB
- Species Douglas fir, Hemlock/White fir
- Shipping: Truck, Vans, Rail - UP & BNSF
- Services: Anti-Stain, Treated, End-Waxed, Special Precision Trims, Mixed Loads, & Paper Wrap

ROSBORO MANUFACTURED TIMBER | RMT®
Rosboro has created a laminated substitute for solid-sawn Douglas fir timber.
